VOLUNTEERING

Vizualizator Festival: The Use of AI in Photography - Photography and Cinematography Volunteer

[15 Nov 2023 – 10 Dec 2023]

Belgrade, Serbia

The 2023 edition of the Photography Festival Vizualizator focused on the use of AI in visual arts. As part of the selected volunteering staff, I was responsible for documenting footage on event days for promotional purposes.

[1 Aug 2022 – 30 Aug 2022] **Youth Centre Montana - Caretaker Volunteer** Montana, Bulgaria

As part of the Youth Centre Montana's agenda in helping disadvantaged youth, I provided support in organizing leisure activities. The leisure program was built on the basis of peer-to-peer learning and creative activities.

HOBBIES AND INTERESTS

Vitrual Reality Technologies

I enjoy developing and using VR/XR applications. I also like to maintain overview of the latest trends in immersion and VR technology and their application in real fields such as medicine and education.

Minecraft Modding

My first Java projects were based in the popular game Minecraft. Through the development of my own extensions to the game, I learned the language, game architecture and 3D modeling.

Video Editing and Visual Effects

With 5 years of experience across multiple video editing programs (Adobe Premiere Pro, Adobe After Effects and DaVinci Resolve), I always had an interest in replicating visual effects and sequences from my favorite movies. Some of this work even extended to the use of Unreal Engine 4 & 5, to make fledged out cinematic sequences.

Baseball

I have played and coached baseball for 4 years in both Slovakia and Serbia. As part of both teams, I also attended international tournaments across Europe.

WORK EXPERIENCE

GWP

Video editor

- Worked on producing and editing a video for UNCCD's platform for drought risk and impact assessment
